division in the nation (page 4)

From Philip Webster, Political Reporter, Cardiff

last night that people's savings would not be safe under a Labour government and listed six big private firms which would be under threat from nationalization proposals.

The Prime Minister used the first set-piece speech of her election tour significantly to intensify her attack against the Labour Party, when she dubbed its manifesto, The New Hope for Britain the new rope for Britain. If the British people put their signature to the manifesto, she said, it would be a suicide note for Britain.

In a fierce speech at a Cardiff rally which is bound to provoke charges of scaremongering from her opponents, Mrs Thatcher also spoke of "47 ways in which Labour now intends to limit or destroy our freedom".

She said the Labour Party went in for nationalization as other people went in for stamp collecting. It wanted to take over one of the big banks, pharmaceutical companies, electronics companies and building firms.

She then listed Beecham's, ages". GEC, Glaxo, Plessey, Barratt

Early end to recovery forecast

By Frances Williams **Economics Correspondent**

A dismal portrait of the economy over the next 18 months if present policies are continued has come from the respected independent forerespected independent fore-casting group, the National Institute for Economic and Social Research, in its latest Review published yesterday. The institute says that economic recovery will start to

fade early next year, accompanied by rising anemployment and higher inflation, and that in the longer run low investment threatens Britain's ability to achieve lasting growth without strong upward ressure on prices. The institute stops short of

a call for a general expansion of the economy, but urges the Government to boost public demand and create jobs. The Government's handling

of North Sea oil revenues also comes in for implied criticism in a special article by Sir Fred Atkinson, a former chief economic adviser at the Treasury. He says that the recession would have been far milder and unemployment half a million lower if the Government had used the revenues to raise public investment and cut taxes instead of reducing

public borrowing. Economic prospect, page 17 forced to strike against all of

plans are carried out the number of Freach warheads that would survive a Soviet first strike would increase from 48 at present to over 200. This could provide a full credible capability to inflict enough damage to force the USSR to launch a general war against the US and Europe,

It adds that President Mitterrand is emerging as a "perfect Caudist" by attempting to dominate defence strategy in Ешторе.

Pretoria revenge raid on Maputo

From Michael Hornsby and Ray Kennedy

The South African Air Force early yesterday bombed and straffed what it claimed were African Nationa Congress bases in a suburb of Maputo, the Mozambique capital, in retali-ation for the car bomb blast in Prenoria last Friday which killed 18 people and injured 217.

Reports from Mozambique said at least six people were killed and 24 wounded. In Cape Town, General Magnus Malan, the South African Defence Minister, said

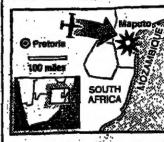

that "although the retaliatory attack could never compensate for the cowardly bomb attack it will at least demonstrate to the world and South Africa's enemies that South Africa is ready to act when and where

necessary".

A few hours later, the ANC offices in Dar es Salaam, formally claimed responsibility for the Pretoria bomb blast and denounced the Maputo raid as "an act of wanton aggression".
The ANC denied it had bases in Maputo or anywhere else in Mozambique.

It said the Pretoria bomb was directed against "strategic mili-tary installations which are an integral part of the regime's machinery of repression and terror in South Africa and Namibia (South-West Africa) and aggression against indepen-dent Africa".

In Pretoria, a South African Defence Force spokesman said between 300 and 400 ANC cadres were believed to have

been at the five installations bit in the Maputo attack, codenamed Operation Bits and

"intelligence at this stage already indicates that scores of ANC terrorists were killed in the attack. Our guess is that there would have been about 30 to 40 terrorists at each of the five other complexes that were did not say how many aircraft were involved, but said they and their crews returned safely.

The strike was supported by opposition parties in Partiament, but criticized by the Azanian People's Organization. which called it a destabilizing tactic. Bishop Desmond Tutu, secretary of the South African Council of Churches, said he deplored the act as much as he did the Pretoria blast.

It appears that the Maputo attack was directed at the same Continued on back page, col 5

Tides bring new wave of heavy

Science report

metal By the Staff of Nature The waters of the European continental shelf are being repolluted by metallic sedi-ments stirred up from the bottom, a German scientist is claiming. Copper, cadmium and manganese now settled in the mid are being lifted by the tides and currents to produce a "dramatic" in-crease in heavy metal concentrations at the surface, ac-cording to Dr Klaus Kremling, of the Kiel institute oceanographic research. This is "of major concern in waters around the British Isles".

Dr Kremling made his measurements on a voyage of the research vessel Meteor. which took him from far out in the Atlantic, around the Hebrides and the north coast of Scotland, and down the North Sea into the German

At 48 points on the voyage, Dr Kremling and his associ-ates took samples of water from a depth of six feet, and analysed the samples with great care. The first samples, in the Atlantic, were relatively low in heavy metal concen-trations, but there was a sharp and clear increase as soon as the ship crossed on to the continental shelf (where the bottom shelves up to a depth of 600ft). The levels tended to remain high, with a patchy series of ups and downs, all the way back around Scotland and down the North Sea to Germany.

The metal concentrations above the continental shelf may be "dramatic" but Dr Kremling does not consider them to be dangerous. For copper and manganese, they reach around 15 times the level of the open sea, and for

cadmium something less.

The most interesting point. Dr Kremling says, is the sharpness of the increase in level at the continental shelf boundary. It indicates, he claims, that the metals are being brought to the surface from bottom mads. This would be possible where the water was shallow and tidal and other currents strong (as off the Hebrides), but not in the deep ocean. This, in turn, raises the question of bow the bottom mads came to be

Dr Kremling's theory is that while heavy metals are first deposited in river estuaries, degradation of organic substances in the mud can push the metals into soluble form or into small particles which are then carried long distances to be deposited.

Later, particular combi-vations of tides and currents water so that they resurface. Or Kremling's work has thus identified a possible new process for the distribution of pollution around British coasts.

The launch of People Ex- Britain and US officials on Express, and Friday's flight will press's £99 air service from which the fate of People Express may depend became bogged down in a conflict over the £600m suit being brought by Laker liquidators in US courts.

Although the department is refusing to comment on the talks, which were due to end tonight but may now be extended, the British Governdirectory inquiries do not yet ment seems to be taking industries the number, People bave the number, People Express said in London, and 600 of them made firm and withdraws the action against British Airways and British Caledonian, Britain will

not get off the ground. In fact, the British Government is bound to license People Express to operate on the route The British attitude is that the Americans must decide if British Caledonian were acting

the Bermuda Two bilateral agreement takes precedence, in which case British Airways and legally in dropping their fares to match Laker, or if US anti-trust laws have precedence, in which case British carriers matching People Express fares if approved may in turn face antitrust action in the US.

Whitehall brief

Guardians of the British constitution

British politicians know they have reached the inner circle of government when they mons to attend a receive a summons to attend a rehearsal" at 70 Whitehall. In the past the first stage of becoming a Privy Councillor has turned even the most self-assured and histrionic minister to jella.

assured and histrionic minister to jelly.

Before kissing hands with the Queen at Buckingham Palace, newly appointed Cahinet members or senior ministers of state must go through the motions at the Privy Council office. In the old days the Clerk of the Canadi the Cierk of the Council played the Queen and the prospect of kissing the hands of a middle-aged Civil Service under-secretary has reduced some politicians to helpless mirth

Before several candidates on the hustings hoping for ministerial preferment some time after June 10 get too jumpy. Sir Neville Leigh, Clerk of the Council since 1974, insists nobody plays her Majesty any more: "It is just a quick, sensible rehearsal", he says. Those with a taste for style will relish his room overlook-

ing Horse Guards Parade. They will do their dummy run under a portrait of George III

and a print of Queen Victoria's first Privy Council. With lock a military band with lock a limitary char will be practising on the parade. The experience will be irresistibly Gilbert and Sulli-van's *Iolanthe*. Sadly, uni-forms, tight pants, scrambled-egg and all, were dropped after e Second World War.

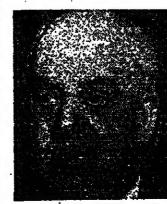

Sir Neville was busy the week the election was called. In company with a small team of Privy Councillors (there are always a few on what the Royal Air Force would call 'quick reaction alert") he had to motor to Windsor Castle and attend upon her Majesty while a proclamation dissolving Parliament was signed and an Order in Council was promulgated enabling election writs to be served.

The Privy Council is a kind of holding company for the British constitution, performing a variety of what Walter Bagehot would have called both dignified and efficient ections for the nation.

On the dignified side, for example, the Privy Council met in 1981 to hear the Queen give her approval to the marriage of the Prince and Princess of Wales. Last year on the efficiency froat an Ministry of Defence to requi-sition a merchant fleet to accompany the task force to the South Atlantic.

The Privy Council is also the guardian of the first of a long line of British secrecy conventions which make us the envy of advocates of closed governments the world over. Before the Queen new members agree that:

You will, in all things to be moved, treated and debated in Council, faithfully and truly declare your Mind and Opinion according to your Heart and Conscience

Sir Neville Leigh: To Windsor to attend on the Oneen.

will keep secret all Matters committed and revealed unto you or that shall be treated of secretly

And if any of the said Treaties or Counsels shall touch any of the Counsellors you will not reveal it unto him, but will keep the same until such time as, by the consent f Her Majesty, or the Council, oblication shall be made thereof.

The Privy Councillors' Oath of Confidentiality dates from 1250, the year after the first English Parliament came into

Could it be that some cierical bureaucrat (permanent secretaries were all priests in those days), worried by questions from some medieval equivalent of Mr Tam Dalyell about the sinking of a French warship, or persistent parliamentary inquiries about a possible devaluation of the groat, decided to defend our rulers from our elected rep-resentatives? Sir Neville laughedd but had no idea.

According to one seasoned Whitehall figure: "As politicious will not allow themselves to be positively vetted, PC is all we have got; the nearest thing to a Scout's oath. for ministers. So of course

V & A buys rare Russian lithographs

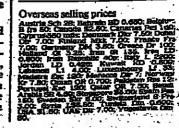

By Geraldine Norman Sale Room Coresponden

The Victoria & Albert Museum grasped the opportunity offerd by the sale of a collection of avant-gard Russian illustrated books at Sotheby's yesterday to secure the only known coloured lithographs by Malevich.

They are characteristic Futurist abstracts and form the cover of a publication issued in Petrograd in 1920. It is called, in translation, First Circle of Lectures: Contemporary Art. It cost the museum £1,430 (estimate £800-£1,200).

The top price was £5.720 (estimate £3,500-£5,000) for a Transrational Book by Kruchenykh and "Alyagrov", published in 1916, which underlines the links with Dada, The book sale totalled £97,939, with 19 per cent bought in.

In the morning session some of the early children's books sold far beyond estimates.

Surgeon in battle over status of child whose face he rebuilt

David Lopez is eight years old and to all intents and purposes the adopted son of Professor Ian Jackson, the gifted Scottish surgeon who rescued him six years ago and restored his face, which had been destroyed by a disease of malnutrition.

To lan and Marjorie Jackson. the boy is just another child in their family, but not in the eyes of officialdom. Despite all that he has suffered, the immi-gation authorities of the United States and Britain still regard him as an illegal alien. Today he speaks English with

a Glasgow accent, comes top in his class and is an accomplished athlete. But he has endured a long, painful journey since he was abandoned in a jungle mission in Peru as a baby aged

Chelsea growing pains

Nerves were showing yester-day as the cream of Britain's gardeners prepared for today's opening of the sixty-second Chelsea Flower Show (Rupert Morris writes). The public is admitted from tomorrow for three days.

People wandered round with reopie wandered round with nubrelias, spades and water-ing cans, weaving their way past huge vans unloading turf and flower arrangements.

"Everybody's getting a bit tetchy, I'm afraid", a woman in a bright blue track suit said to a customer who had been unwise enough to ask a question of one of the harassed gardening staff.

Mr Nigel Gibson, aged 29, a landscape gardener with John Vellam, of Holland Park, said: "It has been a rushed job, working 12 hours a day". The rain had made bricklaying impossible for long periods; his own display required a substantial wall, as well as a pond surround. sort confronted Hilliers of Winchester, one of the great stalwarts of the show

winners of gold medals for 50 years or more. One of the main attractions is the new Rose of the Year, Beautiful Britain, which was

born" 10 miles from Belfast.

The rose won its prize, after four years of trials, for its unusual colour, described by Mr Patrick Dickson, who has raised about 800 flowering stems for the show, as like a very ripe tomato, and its freeflowering habit. In the South it should bloom for about three months from the end of June. Its immediate parents were two other Dic Eurorose and Red Planet.

Bookkeeper at Brooks's accused of theft

A duke and other peers belonging to Brooks Club, in St James's, London, appeared to be going against tradition in failing to honour their debts promptly, Knightsbridge Crown Court was told yesterday.

But discrepancies in the club's accounts arose from the been the bookkeeper for more than three years, it was alleged for the prosecution.

The club decided to launch an investigation after members debts reached more than £40.000, Miss Susan Jackson. for the prosecution, told the

Paying for Functions promptly and settling personal accounts within a week or two was a tradition at the club, and this was so unlike the members and unlike what had happened in the past", that people became suspicious, Miss Jackson said.

Archar Srinaganand, aged 38, of Pembroke Mews, Kensingion. London, who is married to an official at the Thai Embassy in London, is charged with stealing about £46,000 over a two-year period and covering it by false accounting.

Mrs Srinaganand denies 19 harges of theft and fraudulent

Miss Jackson said Mrs Srinaganand's activities were not discovered for such a long ime because she was responsible for all the banking and keeping of the club's books and had no supervision.

This enabled her to use members' cheques to cover thefts of cash. Later, when the auditors were due, it enabled ber to rearrange new cheques to hide her dishonesty, Miss Jackson said.

From the books it appeared that Lord Roll of Ipsden had not settled his account for a function for 14 months, when he had actually paid within 14

Wessex, the 'one issue' party

It would have been inauspicious to say the least, had King Alfred, instead of dream-ing battle tactics over a business on the Riviera at the first sound of approaching

Danes. The campaign of the Wessex Regionalist party has had such an unfortunate start, with its founder, figurehead and pairon electing to escape the country for the duration, leaving behind a postal vote for the Liberal-SDP Alliance.

Lord Weymouth, eldest son of the Marquis of Bath and heir to Longleat, who collected 521 votes when he stood as the first and only Wessex Regionalist candidate at Westbury, Wiltshire, election of February, 1974, explains that his withdrawal from the present contest is purely tactical. He sees the Alliance as offering the best hope of rekindling the dull embers of devolution.

The rest of his party disagree, and intend to field considerably bigger place than that defined either by Thomas Hardy or the Alliance Green Paper on regional government. The party's Wessex encompasses the counties of Berkshire, Hampshire, Wiltshire, Dorset, Devon and Somerset, as it was before the creation of Avon.

We are essentially a oneissue party," admits Mr Anthony Barrett Muckler, the party president and military istorian from Abingdon, who intends to stand for Wantage. He conceded that devolution has bain dormant as an issue since the voters of Scotland and Wales spurned it in

Basically, the party's mani-festo is The Statute of Wessex, a document drawn up last November calling for the establishment of a bicameral Wessex regional assembly with full tax-raising powers and called, inevitably, the Witan. Where it would be lay claim to being the region's capital, the ancient Wessex kings having been a peripa-Mr David Fox, the party

secretary and a young Dorset farmer, admits to two main obstacles on the path to election success the region is relatively prosperous, without the burning injustice of high unemployment that might mobilize a regional vote eisewhere; and any Wessex cultural identity, if it does exist, is no match for the potent nationalism of Scot-

and, Wales or even Yorkshire. country matters: declining rural bus services, the closure of village schools, friction between matives and incomers, and a vaguely expressed feeling that all roads lead to London and drain the region of its best talent and resources.

In 1979 the party fielded candidates. Weymouth moved to Wells Mr Mockler stood in Devizes and collected 142; Gwendoline Ewen, a former actress who is the party's principal visual asset, stood in Dorset, West, and made 192. Their biggest success was in Westbury, Wiltshire, where they collected 1,905 votes, partly strong and well-known local personality, and

This time deposits will cost the party £1,350, and as party funds this week stood at just over £140, the candidates will pay from their own pockets.

Britain is the only country of comparable size in Europ which does not have regional government," Mr Mockies

They are, they insist, and separatists, and harbour no dreams of a Kingdom of Wessex free from the British Crown. They would just rather

Irish journalists ban all party interviews

From Our Correspondent, Dublin

Journalists at RTE, the along the east coast and in isk Republic's state-owned northern countles, tune in dio and television network, regularly to BBC and Ulster Irish Republic's state-owned radio and television network, decided yesterday to black list the election campaign in 13 out of the 17 Northern Ireland

Their action is a protest against the Dublin Government's continuing ban on interviews on either medium with members of Sinn Fein, the political wing of the Provisional IRA.

The journalists argue that they cannot adequately or fairly cover the election in Northern Ireland if they are prevented by law from inter-viewing certain candidates or from explaining their policies.

They feel that the ban is particularly wrong as several of the Sinn Fein candidates

taking seats.

have a reasonable chance of

viewers in the Republic, those

The journalists' demand that the ban on Sinn Fein, imposed under section 31 of the Broadcasting Authority Act, be lifted for the Westminster elections has the backing of the RTE authority, the governing body.

television broadcasts where no

such restrictions exist and interviews with all candidates,

sintement after National Union of Journalists meeting at the station's headquarters in Dublin yesterday said that in the interests of fair reporting, interviews in all constituencies where section 31 prevented the equal treatment of all candidates would be black listed. Only factual

orting would be provided.

LAW AND ORDER Battle over control

of the police

Control of the police is the most controversial difference between the parties on law and order. Elected police authorities would be created by a Labour Government throughout the country, including London. They would have statutory responsibility for local police

policy.

To handle complaints against police Labour would have an ndependent system "accountable to local communities with minority police representation". Labour's aim is open disussion on community councils between local people and police

about "the quality and manner of police provision". Special patrol groups would be disband-The Conservatives leave it for granted that, if elected, they would keep the Home Secretary as police authority for the Metropolitan Force in London. Outside London police authorities comprise two thirds county councillors and one third magistrates. Conservative

abolition of big metropolitan councils would mean the creation of joint boards for the police and fire service The Alliance pledges to strengthen community representation on police authorities

and encourage it in local police The key facts on law and order

The prison population has jumped from 42,364 in May, 1979, to 44,832. The Government says a constable's pay rose by 72 per cent between May, 1979, and last November, but extra pension contributions cut the last 10.3 per cent rise to 5.6

per cent. Recorded crimes topped three million in England and Wales for the first time in 1982.

divisions. There would be an independent system to investigate serious complaints against police and a conciliation ser-

The Conservaties also mean to re-introduce their controversial Police and Criminal Evidence Bill to increase police powers, though if it were passed Labour would repeal it. Conservatives promise more courts. more compulsory attendance centres for "young hooligans", 4,800 more places in 10 new prisons and more grounds for disqualifying ex-criminals from sitting on junies. And, where necessarey, police establish-ments would be increased.

The Conservatives accept the ecution system and will consider how it might best be set up. But Labour gives a firm commitment to appoint public prosecutors in England and Wales similar to the procurators

fiscal in Scotland.

Labour would reduce many maximum sentences for non-violent offenders to relieve the prison crisis. The legal aid scheme would be widened. And a "major initiative" to help

victims would be launched.

The Alliance would incorporate the rights and freedoms of the European Convention on Human Rights in a new Bill of Rights for the United Kindom and create a commission to help

people bring proceedings. Tomorrow: Conservation

CONSTITUENCY PROFILE

Dudley, West

Boundary boost to Tories

CANDIDATES: John Blackburn C William Price Lab Gerard Lewis L

John Blackburn, defending a slender 1,139 Conservative majority, considers there is too much sophistry about Dudley West, which is a hard-nosed Black Country seat if ever there was one, with 58 per cent owning their own houses.

In 1979 he overturned an

,500 Labour majority and says that 22 years as a resident has helped to build a personal vote. and reduce it from the "critical" marginal category.

In the tradition of the theatre

that "bums on seats" means success, he maintains that "money in the bucket" passed around at his adoption meeting is a reasonably firm indicator that the constituency will return him. In 1979 the "bucket". produced £475 to help the fightand last Monday (May 16) it produced a gratifying £1,880. Boundary changes have also helped boost his confidence. He has usefully gained support from the neighbouring Halesowen and Stourbridge seat and

gladly lost large council estates to Labour-held Dudley East. A large private development of 4,700 private homes at Amblecore on former drift mining land, although only

He said the constituency had an unemployment rate of 10.8 Black Country workers, includer cent and so far the subject ing many from Round Oak. He had no wish to have for paramount said that many had no wish to partly built, is welcomed.

crystal glass firms such as Royal Brierley and Stuarts. Mr Blackburn said: "It is a good challenge. Although it is a marginal, it is not a critical one and I think we will hold it". Mr William Price, who held Rugby for Labour from 1966 to 1979 and was responsible for information services under Harold Wilson, acknowledged after 18 months turning the seat that it was a difficult one to read. He said the boundary changes had not been kind to him. He said Mr Blackburn's 10.8 per cent unemployment figure was a notional one and well

Oddly, the closure has produced a spin-off of sorts in that £350,000 is now being paid by the EEC to retrain redundant

the local college of technology, said a preliminary canvas showed a lot of people were still undecided, which was an encouraging indicator for him.

He said: "I think we have a chance of taking the seat. At the moment, we are trailing in the polls but I don't think they reflect what we are getting on the doorstep. The voir will go away from Labour and we will be the real alternative."

short of reality. In Brierley Hill

it was 25 per cent and nearer 18

per cent elsewhere. Other matters of crucial importance

were the Conservative-con-trolled Dudley council's poor

Repatriation | Livingstone central to NF policy

By John Winder

The National Front does not expect to spend its time convincing people of the right-ness of its policies, Mr Andrew Brons, the chairman, says in the personal letter with which the

Front's manifesto, published yesterday, is prefaced. He says that if every patriotic Briton who agreed fundamen-tally with National Front policies were to vote for the party it would win with a big majority in every seat con-tested. "All that is needed is for patriots to be true to themselves and vote according to con-

science". The Front is to field 61 candidates, almost all in urban seats. Mr Brons is standing in

Leeds, East. First in its manifesto, the Front puts race and immigration, pledging to put an end to a multiracial society and "to make a land fit for our children to grow up in". It would end all non-white immigration and institute a policy of phased

repatriation. On the economy, is says that ustry is the root cause of all the other evils of capitalism.

The manifesto deals in detail with economic, social services, government and administ-ration, law and order, defence, and foreign policies. It says that it is the state's duty to provide full employment and to protect the involuntarily unemployed

from undue suffering. The party proposes with-drawal from all internationalist bodies, including the United Nations, the EEC, Nato, the IMF and other such financial bodies. It proposes the abolition of the House of Lords.

Under law and order, it proposes the immediate deportation of black criminals and favours speedy suppression of

carried out "by ordinary demo- be accused of flattering under-cratic means"; such was the statement", says GLC will live on

By Michael Baily:

Mr Kenneth Livingstone, who last week lost his chance of a seat in the new Parliamen gave a warning yesterday that a Conservative Government would fail in its effort to abolish the Greater London

Council. Speaking at a County Hall press conference with Mr Albert Booth, Labour's shadow transport spokesman, as Londoners enjoyed their first working day of new, cheap fares, Mr Livingstone indi-cated that Labour's cheap fares were the rock on which

the Conservatives would foun-Even if Mrs Thatcher won the election it would take two years to abolish a body so large and complex as the GLC, he said. By then London would be complex as for an election in be coming up for an election in which a further fares cut of 25 per cent would be a key Labour plank.

In those circumstances even a Conservative House of Commons would not vote for abolition of the GLC. After this weekend's cats, when fares dropped by an average of 25 per cent at a cost of £80m on the rates, Labour would press ahead with service improvements on London's buses and tabes and would

argue for more fares cuts. Its eventual aim would be restoration of last year's "Fares Fair" levels which would require a further 25 per cent cut, and stability there-

Mr Booth said Tory plans to abolish the GLC and other metropolitan counties raised a major election issue.

It would not only deprive people of cheap and efficient public transport in cities but also of the opportunity to choose their local transport policy through the ballot box. The Conservatives' intention to replace the GLC by a metropolitan transport authority for London was the "height of hypocrisy" in a party that prided itself on abolishing non-democratic quangos, Mr Booth said.

"There is no denying there is a cost to transport", Mr Booth said. "It is a choice between the cost of funding an effective public transport system or the cost of congestion, accidents, and inefficiency."

Christians urged to think afresh

The Bishop of Winchester,

Dr John Taylor, has said he is thankful that Britain has no politial party claiming the title Writing in his diocesar

magazine, the bishop said: "If such a party came into exist-ence, I for one would fight shy of it - for any such claim implies that our Christianity, properly understood, must make us all think alike on political issues, which is clearly not the case, and it also implies that the other political parties are un-Christian."

He said that Christians should never be "blindly loyal" to the party they had always voted for but should look at the moral issues and make their minds up afresh. Two great principles stood out for the Christian, Dr Taylor

said. One was bias for the poor: Any society which does not champion them stands against God's judgment." The other was a balance of

Dr Taylor: Glad there is no Christian party.

CONSTITUENCY PROFILE Ealing North Lively times ahead

CANDIDATES: Harry Greenway Hilary Benn Tony Miller

When the television computers begin their split-second analyses on election night, the result that will spark more than average excitement among the commentators will be that from Ealing North, one of the most marginal of the marginals.

Not only is the sitting

Conservative in this west

London constituency, Mr Harry Greenway, fighting to retain a seat he won in 1979 with a wafer thin majority of 1,480, but he has been handicapped under the boundary changes by losing a strong Tory ward with an estimated 3,000 votes to the adjoining Conservative con-

stituency of Acton. On top of that, the Labour candidate, selected 15 months ago, is Mr Hilary Benn, 29-yearold second son of the bete noire of British politics. He is a local councillor, well versed in parochial issues, is particularly involved in the Ealing controversy over education cuts, and already scents victory.

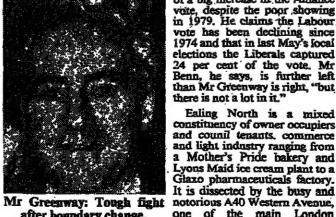

So, despite the protestations

of the two leading candidates that their campaigns will be

clean and not descend into

personality assassination, in Ealing North there are a

number of reasons to expect an battling against "extreme leftentertaining punch-up. Mr Greenway, aged 48, an active and energetic constituency MP and a former compre-hensive school deputy headmaster, won the seat after 15 years of solid Labour domination. Now he believes he is

that the middle-of-the-road Ealing electorate will not be persuaded away from him. The Liberal, Mr Tony Miller, aged 48, a personnel adviser and a veteran of several general election campaigns, is confident

wing socialism" but is confident

of a big increase in the Alliance vote, despite the poor showing in 1979. He claims the Labour vote has been declining since 1974 and that in last May's local elections the Liberals captured 24 per cent of the vote. Mr Benn, he says, is further left than Mr Greenway is right, "but there is not a lot in it." Ealing North is a mixed constituency of owner occupiers

and counil tenants, commerce and light industry ranging from a Mother's Pride bakery and Lyons Maid ice cream plant to a Glazo pharmaceuticals factory. It is dissected by the busy and one of the main London arteries, and overflown by jets on the approaches to Heathrow. It is undistinguished and merges wihout much change of

Foot trades blows over shelved report

By Our Political Editor Heavy verbal blows over unemployment were exchanged between Labour and the Conservatives at the morning press conferences at Westminster yesterday, with Labour's chief weapon being the draft report by the National Economic Development Council (NEDC) debated last March but not

Mr Michael Foot repeated charge on Sunday by Mr Neil Kinnock, Labour's education spokesman, that the report on Britain's industrial performance was suppressed by the Govern-

Mrs Margaret Thatcher replied that, on the contrary, it was shelved with the consent of Mr Lionel Murray, general secretary of the TUC, because it was thought that it would help Britain's competitors if published.

She added: "It is rather strange that the Labour Party is trying tt do something that would help our competitors and damage British industry". Mr Foot said that the report

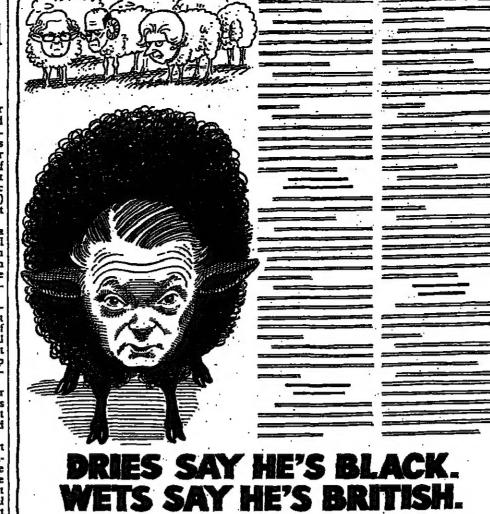

destroyed many of the Con-servatives' claims about the past, including their "favourite excuse" that unemployment resulted from international factors beyond their control. It said that since 1980 unemploy-ment in the rest of the member countries of the Organization for Economic Cooperation and Development increased by 33 per cent, while the United Kingdom rate had increased by 79 per cent.

That killed one of the Tories' claims, Mr Foot said. It also said how they had crippled British industry, and "gave the lie to the Tories' claim that Britain's problems can be laid at the door of wage rises".

At the Conservative conference Mr Norman Tebbit, Secretary of State for Employ-ment, answered Mr Foot's charge that the Government had wasted resources they could have used to provide jobs, the £16 billion or £17 billion direct cost of mass unemployment, the revenue from North Sea oil, the waste of capital needed by British industry but exported.

Foot's unemployment", when he was the responsible minister in the Labour Government, had cost 18 billion a year at today's prices, yet he had failed to find the magic trick to create more

president, said last night in a message to SDP candidates. The party's own research showed encouraging signs that the tide was beginning to turn, that the Alliance message had

Split may pose threat to Powell From Richard Ford

The political future of Mr Enoch Powell was in jeopardy last night after Northern Ire-land's rival unionist parties failed to agree on an electoral pact allowing him a clear run in his South Down constituency. Unless the two parties reach

some agreement before polling day, the present campaign may signal the end of a parliamen tary career which began more than thirty years ago when he won Wolverhampton, South-West as a Conservative.

Despite failure to agree, both the leaders of the Democratic Unionist and Official Unionist parties held out the hope that a split unionist vote in two crucial constituencies could be avoided if one unionist candidate advised voters to support his rival and ensure that neither seat was won by nationalists.

The Rev Ian Paisley, leader of the Democratic Unionist Party said: "I think wiser counsel can still prevail."

Mr Powell, aged 70, has been Official Unionist MP for South Down since October 1974.

Warning to Scots Mr George Younger, Sec-retary of State for Scotland, said

that 250,000 jobs in Scotland, almost doubling the unemploy-ment rate, were threatened if Britain was to withdraw from the EEC.

Geoffrey Smith

COMMENT

What is the Labour strategy in this campaign? Is it just to go on relentlessly about the evils of unemployment, while keeping their fingers resolutely crossed? That might be the impression after an opening week which has seen no new issue of consequence emerge to help them make up lost ground. But in fact there is more to Labour thinking than

The party's first aim is to establish the credibility of their own economic pro-gramme. This cannot be done gramme. I his cannot be done unless they can answer the question: how would you pay for it? The party's strategists believe that the best response is to emphasize how the proceeds of North Sea oil have been wasted and could be put to more constructive nee in the to more constructive use in the

No urgency in opening attack

A quiet opening to the campaign would, in their eyes, be entirely justified if it could be arread to contain the c be used to establish the riability of Labour's proposals. Having secured their own base, as it were, they could then move forward to stress the dangers that would be presented by a second Thatcher government to the bealth service, education and pensions, as well as jobs. This would provide, so it is hoped, an effective climax to the campaign. As it could not be sustained for a full month at such a pitch, there has been no desperate argency to move on to the attack.

Withdrawal from the Europeze Community has no place in this category as an issue of substance, on the ground that the voters are just not interested. Disarmament is seen not so much as a votewinner, but as an issue whose potentially damaging effects to Labour have to be countered. If the party is associated with unilateralism, and if unilateralism is equated with defencelessness, then Labour is in

trouble. Much of this is sensible in advantage to Labour in harping on the evils of unemployment. Nobody is enchanted with having more than three million people out of work, but it has been impossible up to now to make much of a campaign issue out of this because the electorate are not convinced that any government could transform the position. Labour's task, in other words, is not to show that there is a problem, but to prove that they have a solution.

If they could do this, then it would be the obvious manoeuvre to accompany the clowing promise of what Labour could achieve with dire warnings of what another Thatcher administration would threaten. Labour would do better to concentrate on these issues, partly becaude they would stand a stronger chance of striking a chord with the electorate, and partly because they can talk about jobs and the welfare state without exposing their div-isions as they would on Europe or disarmament.

The weakness of the Labour strategy lies not so much in its approach to salesmanship as in the goods it has to sell. It is one thing for the party's strategists to decide that they need to make their own economic policy credible with the electorate would not be inflationary There is little evidence that Labour have been succeding.

They would do beter electorally on disarmament if they spoke about nothing but cruise missiles and possibly Trident. where they have the support of public opinion, and kept quiet about unilateralism, where they do not. But this would require a different manifesto and a different leader.

Need for bright new issue

Those who value honesty in politics should hesitate to criticize Mr Foot on this score. He says what he does on lieves it. But he does not help Labour's chances by doing so. It is too soon to rule out the possibility that he may yet lead Labour to victory, no matter how commanding the Conservative lead may look. But what Labour needs above all is a bright new issue that would divert attention away from a manifesto that seems to have been drafted with a view to winning the approval of the party rather than the doubtful

Uniform clash at Zimbabwe trial

From Stephen Taylor Harare

After almost nine months in custody and a final delay caused by a dispute between state and defence lawyers, six white Zimbabwe Air Force officers came to trial in the High Court yesterday to answer charges that they assisted three South African saboteurs in the devastating attack on Thornhill Air Base

last July. A day in which claims that the officers had been members of a traitorous "sabotage committee" were countered by defence allegations that they were tortured under interrogation began with a row over

their dress.
When the six men filed into court for the first time, smiling and waving to relatives in the public gallery, they wore full Air Force uniforms and medat

Mr Honor Mkushi, appearing for the state, objected to the uniforms and after argument involving Mr Harry Ognall, QC, who is appearing for the defence, police and the officers themselves, they were escorted down to the cells.

Mr Justice Dumbutshena said the question of dress should have been settled beforehand. The officers could wear uniforms if the Air Force did not forbid it, but he made it plain he did not want them in

When the trial resumed the officers appeared in civilian

The accused are Air Vice-Marshall Hugh Slatter, Air Commodore Philip Pile, Wing Commander John Cox, Air Lieutenant Barrington Lloyd and Air Lieutenant Neville Weir.

In a summary of the state's case Mr Mkushi said the officers, who had enjoyed the trust of the state, had conspired with agents of a foreign power to leave Zimbabwe defenceless and vuinerable.

The plot had been hatched in December 1980 with the creation of the "sabotage committee", Mr Mkushi said, but it had only been put into effect after the arrival of four new Hawk aircraft from Britain last

The Hawks, eight Hawker Hunters and a reconaissance aricraft were destroyed or badly damaged when incendiary devices exploded at Thornhill near Gweru on July 25. The Financial loss was well over 7m Zimbabwe dollars (about £4.5m).

The six actively assisted three South African saboteurs who may have used road and air transport to enter and leave Zimbabwe undetected. The accused had admitted their guilt freely and any allegations they had been mistreated under interrogation were a "complete fabrication", he added.

Outlining the defence case Mr Ognali said that all six accused had been mistreated in custody and had been denied access to lawyers before making warned-and-cautioned ments. The statements were false and had not been given voluntarily. Slatter, Briscoe, Cox and Lloyd, who had persistenly maintained their innocence, only made incriminating statements after being booded, assaulted and subjected to electric shock treatment, Mr Ornall said.

Reagan begs | Vietnamese Khomeini to spare 22 **Bahais**

From Mohsin Ali Washington

President Reagan is asking world leaders to join him in appealing to Ayatollah Khomeini and the rest of the Iranian leadership not to carry out death sentences against 22 prominent members of the Bahai faith.

He said at the weekend that the US and the world were increasingly alarmed and dismayed by the persecution and repression of the Bahais in Iran.

la the first presidential public statement of this kind on the Bahais which coincided with the anniversary of their founding in 1844, he said: Recently we have learned that the Government of Iran has sentenced 22 prominent members of the Bahai faith to death. These individuals have not plotted the overthrow of the regime and they are not responsible for the deaths of anyone. Sparing their lives would be a step forward for Iran and the world comm-

More than 130 members of the Bahai faith had already been killed since the start of the Iranian revolution.

Several resolutions have been passed by Congress on behalf of Iran's Bahais who number between 300,000 and 400.000. The faith claims more than two million followers in some 150 countries.

ex-Premier among boat refugees

Singapore (Reuter) - A former Prime Minister of South Vietnam was among a boatload of refugees which arrived in

Singapore, a United Nations official here said yesterday.

Mr Nguyen Van Loc, Prime
Minister in Saigon for seven
months in 1967-68, arrived with

32 other "boat people" on May
13 after being picked up by a
French cargo ship.
Mr Loc, aged 62, said he had
left Ho Chi Minh City six
months ago and escaped from a port in southern Vietnam at his fourteenth attempt.

France has guaranteed to resettle him and the 32 others now in Singapore's only refuged camp, a UN spokesman said.

HONGKONG: A group of 14 refugees from Vietnam have decided not to remain in Hongkong but to sail instead to Taiwan because they would not accept prison-style living conditions in Hongkong's new "closed camps", Richard Hughes writes.

The first refugees to have

rejected Hongkong as a sactuary while waiting for resettlement abroad, they had arrived in a crowded vessel on Friday.

Discovering that a "closed camp" awaited them, the 12 ethnic Victnamese and two ethnic Chinese, all men, accepted food and water to last for 10

days and departed on Sunday. They said they had left Vietnam on April 15. If so, they must have stopped for pro-visions or rest at a Chinese port.

Three-week rains deluge

three states Rio de Janeiro (Reuter) Flood waters in southern Brazil, which have caused at least 23 deaths, have begun to recede, but the situation in neighbouring areas of Argentina and Paraguay remained critical

Three weeks of rain in the state of Rio Grande do Sul have destroyed crops and made some 4.000 people homeless. Farmers estimate that they have lost one million tonnes of the expected six million tonnes soya bean

In Argentina more than 150,000 people were made homeless by floods in five northern provinces, and in Paraguay about 120,000 have been affected.

Trade between the US and China last year was worth \$5.3 billion (£3.4b) with a US surplus of \$630m.

US explains in Peking why exports are curbed

Mr Malcolm Baldrige, the United States Commerce Sec-retary, who is visiting China, yesterday justified his govern-ment's policy of restricting cerain exports to China.

He said he was interested in "overall trade patterns" rather than minor disputes and would not comment on reports that the United States had put pressure on the Belgian Government not to sell a telecommunications computer system with US-made components to China.

Mr Baldrige said he had been sent by President Reagan to confirm that the US "valued relations with China".

Nimeiry to rebel south

Khartum (Reuter, AFP). -President Nimeiry of Sudan has decided to divide the mainly African south of the country into three regions, each with a caretaker governor and Cabinet, in an attempt to quell narest in

The official Sudan News Agency (Suna) said the Presi-dent took the decision as part of his decentralization policies and to soothe disputes between bitter rivals in the southern

region.
It said the President would appoint for each region a governor, ministers and provin-cial commissioners for a tran-sitional period of 18 months. Each region would have its own

people's assembly.

The south, which has enjoyed autonomous rule since 1972 after 17 years of war with the Muslim north, is a poor and sparsely populated part of Sudan.

The proposed regions have yet to be designated, but Suna said the capitals would be the towns of Malakal. Wau and Juba. Until 1972 southern Sudan consisted of the three provinces of Upper Nile, Bahr al Ghazal and Equatoria, with the same three towns as their the same three towns as their

centres.

The President's decision, to be announced formally during this week's celebrations to mark the fourteenth anniversary of his rule, was believed to have been prompted by recent signs of dissent in the south after a

Early last year, he said he was considering dividing the south into smaller regions. But he scrapped the plan because of what he said was his concern for the region's unity.

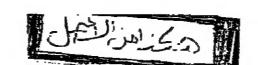

The move was also believed to facilitate Khartum's dealings with the south, which has complained about the slow pace of its development

CAIRO: President Mubarak of Egypt flew to Khartum yesterday to join President Nimeiry for the inaugural session of the Nice Parliament, one of the prilars of the programme launched last October ics unifying the two countries. Robert Hotioway

The Assembly, comprising 60 carefuly selected deputies from each country, will hold its first meeting on Wednesday after General Nimery is sworn in Country.

General Nimeiry, who originally seized power on May 25, 1969, was reelected unopposed last month in a referendum in which more than 99 per cent of the votes were said to hae been cast in his favour.

The man holding the prices steady **Apple**

Apple UK's managing director Peter Cobb appears straightforward to the point of bluntness. Asked to define his role in the company, he volunteers: "Ultimately my job is to earn dollars for the United States shareholders of Apple." In the light of the pound's continually see-sawing exchange continually see-sawing exchange rate against the dollar, it is an

increasingly uphill task.

Apple had its most successful quarter's results in the UK in the run-up to last Christmas, but this was before the pound slipped back to a little over one and a half dollars. Apple builds its IIE and III computers in its factory in Cork, which sells its products to the UK operation priced in US dollars.

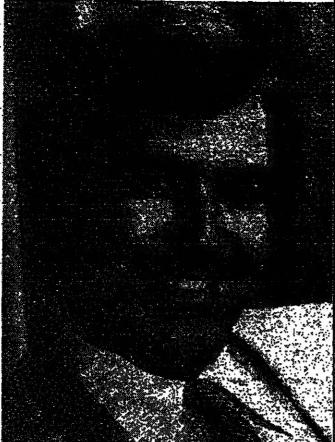

Cobb says he is committed to holding the prices steady, despite the fluctuations in the exchange rate this year which have seen the pound fall from around \$1.60, down to \$1.45 and then back up to \$1.54, "There are all sorts of wrinkles to this thing", he says. "Where is the product bought, how long forward, managing exchange exposures. There's a whole sophisticated exercise going on designed to avoid the consumer having to cough up simply because the exchange rate is low. That's not good business.

Cobb's views were put to the test in the most recent slide: "If the pound had stayed at \$1.45 we would have had to do something about it. No matter what sort of financial witchcraft you use, you can't protect yourself totally against that sort of hazard. As an importer I'd ideally like the rate as high as possible. If the pound/dollar rate got to two then you really would see some changes in the pricing of Apple products in the

As one of the first of the Apple own-employee "com-mando" which was recruited from among European semi-conductor personnel to knock some shape into Apple distri-bution in 1979, Cobb's job was to manage the financial side of the new Apple-owned European distribution set-up, which until then had been handled by a variety of local distributors reporting to an umbrella organisation in Paris, Among the tools used for the job were financial modelling programs running on Apple's own microcomputers. Those programs are still in use.

Before joining Apple, Peter Cobb had spent five years in Brussels as European financial controller of Intel Corporation, the semi-conductor manufac-turer, but was lured back to the UK by the offer of a start in commodity trading in 1978. "Financial people are lucky," he says. "It's relatively easy for them to change industry, whereas engineers or service people must have the back-ground experience in that

discipline. But his new start had lasted only a few weeks when his former boss at Intel, Tom Lawrance, now general manager of Apple in Europe, asked Cobb to start work fo him as financial controller of Apple back in Brussels the following Monday. He took the job on the

Peter Cobb: ironing out the wrinkles

understanding that the UK general managership would eventually become his. Cobb believes that the major part of personal computer sales lies with business people, where price is less critical than the ability to supply a system complete with professional

"I didn't want to be the chief bean counter for another big American company for another five years, that was not the way wanted my career to go. It was a pity in way, because I enjoyed the commodity business."

Cobb succeeded to the general managership in the UK sooner than he expected. In the first instance he had to assist the US management to settle with Microsense, the UK dealer group which had exclusive rights to distribute Apple's wares in the UK under a deal struck in 1978 with Andre Souson, who represented Apple in Europe.

The terms of Apple's buy-out of Microsense have never been revealed; Cobb reveals only that they were "generous". But in the end it was the ill-health of Mike Brewer which accelerated his retirement as managing director of Microsense and Cobb's preferment to the managing directorship

March.

Cobb, who was joined shortly after his appointment by Keith Hall, recruited from Apple's competitors Commodore to take charge of sales, has presided over a steady refinement - some would say purge of Apple's dealers in Britain.

Until recently Apple had come in for criticism for its high prices and ageing product line, but this has not inhibited sales. Its strongest selling machine has been its Apple II - essentially same machine as invente by the company's founders Steve Jobs and Steve Wozniak in a California garage in 1976, but recently overhauled to provide more power and simplify construction.

The reduced build cost and keen pricing of newer machines from competitors had been widely expected to lead to a price cut, but none has yet been effected; nor, with the pound standing at \$1.50-odd, does one

In any case, Cobb says that the IIE is correctly positioned in its market and sees no need to reduce the price, which allows the dealer a healthy margin as in incentive to provide service back-up. So far the UK market has been little affected by the so-called "Chinese copies" of the Apple, which can cost as little as US\$200-300 in Taiwan and Hongkong and which have attracted international legal action from the US parent

United's Cup goalie dives into computers

Few of the millions who watched Manchester United and Brighton in Saturday's FA Cup Final can know that Gary Bailey, the blond giant guarding United's goal, has another, more restrained career, in the world of computers.

After two years' study at a South African university before coming to Britain, Bailey gained a BSc degree at Manchester Polytechnic while on day release from his club. He is now the ware that his negative one ware into his negative. one year into his master's degree in computer engineering

As part of his research there, he has become involved in assessing the role of computers in the planning of sports centres. Naturally enough, he has a special interest in the problems that are besetting league soccer, and has worked on a costing package for United, who, when finances improve, could well put his ideas into practice.

UMIST, he has developed a financial planning programme suitable for use by prospective sports centre developers, using the well tried "What if?" system that poses questions such as "If construction costs rose by 10 per cent, at stage three of hopes to attract businesses to building what percentage in- whom he will also offer the crease would be needed in the facility of tailor-made software.

One of the facts unearthed during Bailey's research is that the once highly profitable squash courts are declining in favour of indoor tennis, which promises to be sport's new promises to be sport's new growth area. With work on this programme now complete, he

Geoffrey Ellis

There are still businesses around that tie themselves down with paperwork, strait-jacket themselves in bureaucracy, and shackle themselves with costly out-of-date methods.

You may even suspect your own business could be run on more efficient lines, and better use could be made of available resources.

If you do, then one of the best ways this can be achieved is with the Commodore 700.

Whether your company is a multi-national conglomerate or a one-man business, the 700 Series computers from Commodore will help to make it more efficient, which in turn will help to make it more profitable.

That's because the 700 gets through all the time-wasting (but nevertheless essential) paperwork in a fraction of the time you take. So leaving you with the time to get on with what you're best at: running your department, or company.

The 700 comes in a range of models and options, which means you can select the microcomputer that's exactly right for your particular requirements.

This sizeable range of hardware options includes integral or separate monitors, integral disk drives and even a second processor option.

Which simply means that the 700 can perform a wide variety of tasks and is eminently suitable for many different kinds of business.

Along with a truly outstanding memory capability, ranging from 128K right up to 896K, plus an extremely impressive range of business software, it all adds up to a quite exceptional package.

But what really makes the 700 Series stand out from the competition is the price: starting at just £995.*

A system of comparable sophistication will cost you around a third more than that. And if you don't believe us, just take a look around.

If you'd like further information on the 700 Series computers, or on the complete range of computers from Commodore, one of the biggest microcomputer companies in the world, please fill in the coupon.

And please do it now, even if you are tied up. Then we can very quickly cut down on your paperwork, cut out the

In short, we can set you free, and get your company back on its feet again.

And you can get back to doing what we suspect you are best at: making money.

bureaucracy and cut back on the out-of-date methods.

The TCCB are determined to stand in the way of "star" players who are of a mind to switch allegiance on a short-term basis from one county to another. While prepared to allow them to fill a shuttlettern species of a shuttlettern species of a start term as the start term are to the start term as the start term are to the start term are the start term are to the start term are to the start term are the short-term vacancy once, as, for example, Gavaskar did with Somerset in 1980, once is enough, Last season, Holding did a one year Stint with Lancashure Lancashire were warned then, though there is some doubt as to whether Holding ever knew it, that any application he might make in the near future to do the same thing elsewhere migh be unsympathetically received.

With Wright of New Zealand and Kirsten of South Africa also on Derbyshire's books (Kirsten is, in fact, taking the current season off) Holding, as a second or third overseas player with the same county, would have been likely, anyway, to make only occasional appearances. Knowing how well most of these visiting firemen are paid. I am amazed that Derbyshire could find the money to engage so many.

Zaheer with a touch of gold

By Alan Gibson

BRISTOL: Gloucestershire (2pts) beat Worcestershire by seven ticat i wickets.

Gloucestershire won the toss, and put Worcestershire in, play started at a quarter past two, and the much was limited to 37 overs each. Worcestershire scored 197 for six in theirs. The pitch was soft, not much help to bowlers, the outfield slippery and slow, I was surprised that there was any play at all, though I suppose I should not have been, because the forecasters, abandoning their usual vague havering about "showers and sunny intervals", had come out firmly in favour of "rain". It was the first dry day Bristol has had for a month. The morning was aimably passed in the Hammond Rooms. under the aegis of the Glorious Redheaded Imperturbable Pamela (henceforth to be known as GRIP).

In the afternoon, Worcestershire batted attractively. They began with proper caution, but when their second wicket went down, at 54, in second wicket went down, at 54, in the eighteenth over, King and Patel set about the bowling. Patel was stumped at 106 (as McEvoy had been earlier: Russell, Gloucestershire's new wicket-keeper, is good at stumping). King's was the best innings, full of vigour and fun. It was, I thought, a good Worcestershire total. shire total.

sky was grey and the light poor when Gloucestershire went in. Notwithstanding, Broad and Stovold made a confident start, and 50 came up in the fourteenth over, putting them comfortably ahead or the run tate.

everywhere are united in their

desire to play together. It is because of this that Yorkshire are not prepared to withdraw Boycott and Sidebottom from their side on June 3. They are not alone in feeling as they do that the time has come to stand up to political pressures from Looking ahead, the West

Indian tour to England next summer will be unlikely to take place if the West Indians try to stipulate whom they should play against and who not. Mr Rae has said that "we will have to take a close look at Allan Lamb's credentials". Lamb, in to take a close look at Allan Lamb's credentials". Lamb, in ship match against Northampton-case anyone has forgotten, is a first generation South African. Bradford tomorrow.

grasped when West Indian officials are in England for the World Cup and again in July for the International Cricket Con-ference. If the West Indians

offered something in the region of £300,000 each to tour South Africa next winter. This has been denied by the South 63 by their opener, Smith, ensured African Cricket Union, althat they now join Essex from their though, to put the dogs off the group in the Benson and Hedges scent, they are in the habit of Cup quarter-finals. scent, they are in the habit of denying events which they know to be imminent. If only three of the players mentioned his pins these days, in quick were to go it would be a succession fell over, exiled for remarkable coup; if they were sawdust and was caught at slip all to resist such an irresistible Mendis, after a quiet start, took 15 sum it would be surprising off an over from Malone, all of them sum it would be surprising.

What it would mean to the future of West Indian cricket it is hard to say. That it would be the best thing ever to have happened to motivate black cricket in South Africa is suchored to the crease as if wearing beyond doubt. Even the appearance there last winter of something like a West Indian third XI caused games of cricket to be played in the streets of Soweto where none had been seen before. By comparison, any impact made there by a not very good MCC side sent to South Africa as the result of a vote due to be taken among MCC members in July, would, not politically but from a cricketing point of view, be wholly insignificant.

Nicholas at length began to strike the ball over mid-off and Smith in Days 11 and 12 and 14 and 15 who could not reach the grapes and promptly decided they were sour

One unquestionably sour feature of the championships is the treatment of mixed doubles, an event that is barely tolerated. Partly because the tournament's finances are complicated and partly because the mixed event carries no ranking points, the extra prize money has gone elsewhere. The winners of the mixed doubles will receive only 9.5 per cent of the prize money available to the winners of the women's doubles.

women's doubles.

"It's ridiculous", said John Lloyd yesterday. "I like the mixed doubles. It's good fut, "

"Connors beat Craig Miller, an Australian who may have been and if it all went right for everything hirefly encouraged by his home address which is French's Forest. The was a little more wersatile."

rankings by anotyper mame, and would make more sense if there were separate lists for fast, medium and slow courts. The men's winner, nevertheless, should come from the predicted last eight. Comors v José-Luis Clerc, Ivan Lendi v Jannick Noah, Jose

Hisperas v Guillermo Vilas, and Wilander v John McEnroe, Connors has never reached the final here. McEnroe has never even reached the last four. Clere and Vilas have not been at their heat this year, and Higueras, whose elbow has been bothering him is militely to last a fortnight at Roland Garros.

Noah would be a welcom champion because his game is bolder and more versatile than that of the modern breed of baseline players who rely on attritio is more reminiscent of Adriano ustra. But it must be doubted if Nosh has the necessary mental retilience: and will he always wake up in time to bonour his playing commitments?

Lendl has been looking vulnerable and, as Gottfried suggested vesterday: "He has bot, something playing on faster courts in the States, and I think he has lost the patience to play on clay." This process of elimination – so logical on paper – indicates that Wilander should retain his title.

So should Martina Navratilova in

the women's singles, from which three seeds - Zing Garrison, Anne Smith and Rosalyn Fairbank - were dismissed yesterday. The predicted last eight is: Miss Navratilova v Sylvia Hanika, Tracy Austin v Pamela Shriver, Bettina Bunge v Andrea Jaeger and Hana Mandiko-va v Chris Lloyd. Viginia Wade, when asked

virgina. Wade, when asked yesterday to compare Miss Navrati-lova and Margaret Court, a similar type of player, said that both were superb athletes and could "steam-roller" their opponents. "Martina doesn't suffer from the same type of preview that it more likely to fold

England end tour as they began

Bucharest (Reuter) - The England under-23 team heat the Romanian outh side 12-3 here on Sunday. So England won all three matches during

their tour of the country.

The store at half-time was nil-all, but England's greater power and skill was decisive in a half played in heavy rain. Stringer opened the scoring with a try in the forty-fourth minute, which be converted himself and Dun scored a second try 10 minutes later. Stringer again converted.

The Romanians missed several chances, their only score came from a penalty by Pidarescu in the sixty-sixth minute.

ENGLAND: N Stringer: D Trick, R Kribbs, 8 Hastday, M Balley; S Bernes, N Meiville; S Regiem, M. Dixon, J Curry, G Penagar, N Wildrigon, A Dun, G Rose, D Richards.

Touring team have more problems in the back-line than in the lineout

Doleful prospects in Lions' centre

From Terry McLean, Wellington

Mark Basham, who may be the only scrum half outside Peking to play first-class rugby - and play it so well - in a pigtail, said kind words about the conquerors after his Bay of Plenty team had been beaten at

of Plenty team had been beaten at Rotorua on Saturday by the touring British Lions by 16-34.

"The first 20 minutes," he said, "were the hardest i can remember. The pressure exerted by the Lions was tremendous. No wonder we soon conceded 22 points. They were

What then, it may be asked, caused the Lions so much to go off the boil that in the last hour they were able to manage, on an ideally firm pitch, no more than 12 points white Bay of Plenty scotted 16? The certain knowledge that they

were going to win is not a sufficient answer. In the first 15 minutes of the second balf, Bay of Plenty twice: flitted through defensive holes wider than a church door and much deeper than a well. The last try for the home team was a gift. Despite ample time and space to make a touchdown for a drop-out at the 27. Ringland bounced the ball as if it were a Yo-Yo and a stylish and gifted wing Cameron, snaked on all fours to grab the ball before it crossed the dead-ball line.

Ringland's blunder was almost as Woodward and which, in the long run. cost the game against Auckland four days before. Had Woodward run rather lumbered after the ball, bouncing and slithering on a greasy putch into the Auckiand in-goal area he must have been assured of a Ly and the consequential goal by Campbell.

Woodward's sin was that he was casual. It may be that the 18-year-old Auckland wing, Kirwan, who made the save, will in a year or two be lauded as another Bryan Williams, large, powerful zestful

tough.

That is no excuse. By two ir; and gave away another, and it really is time that their three-quarters, or some of them, ceased to believe in their ability to walk the water. It may be that in the long run the defeat by Auckland will have shaped the Lions into a team capable of winning the international

by Woodward on Saturday, there has not been sign of a real centre by real British standards, and Carleton. who on Saturday, playing his first match, looked by far the finest of the wings so far fielded, turned out to be an outstanding player simply because he insisted on nipping in and out, looking for work in other

men's places.

Whether the grand strategy is to exercise the forwards until they build up a power comparable with Auckiand's, and which is unlikely to be improved by the All Blacks, is a matter of guesswork but there is no decided a the treat of construcdenying that the want of construc-tive play in the backline has been, thus far, a major disappointment.

It may be that the originating fault lies with the four home unions in too readily accepting too demanding an opening to the tour, and it may be, too, that the tour will demonstrate that an 18-match programme is insufficient for a major tour because it does not give either our because it does not give major tour because it does not give either players or management a chance to try out various experi-mental combinations before tack-ling the first international.

Happily, there are consolations. Haden said that but for the tackling by Holmes, Auckland would have won by 10 points instead of scraping home by just one. Laidlaw on Saturday was the player of the day, much sharper on the clearing pass than in his first game. Hare and Campbell kick goals as if they were Big Bill Tilden firing in service aces, and if Squire's attack, which began the unseemly brawl at Rotorua, was not quite a captain's knock, at least he is demostrating exceptional qualities in the backrow.

It is another hard week, this week, for the Lions. If rugby is still amateur, is it right that touring players should be treated as gladiators. Ruthlessly flung into the fray as soon as they begin their trek?

Fastest field

Indianapolis, (Reuter)-The fastest field in the history of the Indianapolis 500 mile race was Indianapolis 500 mile race was completed on Sunday when rain limited successful qualifying runs to only one car. The 33-car field had a speed average of 198,406 mph (319,235 kph), 0,666 mph (1,072 kph) faster than last year.

Ten drivers qualified above 200mph (322 kph), led by Italian rookie Teo Fabi, who broke track records with a lap time of 208,049 mph.

MOD. PENTATHLON Reward for

Et maintenant, Britain aims to break into the world of Pétanque

Plaid! Shirt! Per-tonk's fact, the ultimate shot in petanque is the carreau. That's the 180 of the game, when you aim at your opponent's boule and clout it miles away, while your own stops dead in its place." pockets of civilization start the boule rolling

air, bit the surface and rolled to within six inches of its target, the cochonnet, and guarded the approach. Alain St Denis haussed his epaules, and beamed: "Like ect!" he said, and his captain agreed. "Bloody good shot, Barbara," he said, and Barbara. Sharratt of the Wheatsheaf transped from the circle. The pressure was stepped from the circle. The pressure was all on Shedfield now.

The crowd was not sipping pastis, and very few were saying "formidable"; it was pints of lager, nice one Mike, and to make things quite quintessentially English, at least one person in four was wearing a silly hat. The place was Southampton Sports Centre, the occasion the 10th British championships, sponsored by Piat, and the sport was petanque, the francophile's shove halfpenny

Any one who has ever had cheese before the pudding knows the game played by French workinen, often in actual berets and blue overalls, outside cases, in dusty squares beneath plane trees. It is game watched with sleepy interest by a million tourists, drowsy after a caraffe or two of dejeuner, lingering over a cup of coffee in

Most tourists seem to come home with set of boules, for it is a well known fact that a holiday longer than a fortnight means you make a dozen vows to improve your life when you return, to make real coffee every time, to drink more wine, and less lager, to be as civilised as actual Frenchmen, who after all, really do know how to live, don't they? Boules is a further symptom of capitulation to this pleasant myth, as everyone who has bought Pernod in preference to Scotch on the boat home

Just occasionally, the determination to amend one's existence take a hold of some one with a sufficiently restless cast of mind to start using his filtre individuel. Maurice Adney-Hastings was just such a man, not content to leave his boules gathering dust beneath the stairs, nor to play occasional games in the back garden while he told stories about that awful waiter in Dieppe. At Sam's Hotel, Shedfield, he got British petanque moving, and became founder president of the British Petanque Association. What is more, the BPA has won international recognition.

When the world championships take place in Tunisia later this year, Britain will be there, and Stephen Lombard, aged 19

Dusty square, a dapple of sun. Clumps of people chatting and watching with idle interest. The steel boule arced through the Norfolk Square, the London spot for boule where French warters and English enthusiasts chuck these cricket-ball sized cannon-balls about with scientific zest.

"Britain's best so far was eighth place in the world championships, so my target is to improve on that," said Lombard. "I'll be going to Le Havre in June to get a lot of practice in." He first got involved with the game when he was 12, learning, he explained mysteriously, in a French restant and in Bottey. He fancied the game, joined a club, and - voilà.

"I was impressed with the way he won his world championship place," said Bob May, president of the Southampton Arms Petanque Club. "In fact, the bastard beat us to get there."

But it is all serous stuff at the British championships, despite the silly hats, as the two teams of three battled it out in the final, fighting to reach the magic score of 15. There were four hats in evidence, Mike Sharratt, the Wheatsheaf captain, with an expressionless face and a nurderous accuracy with his shooting, favoured a white hat like a largish Yarmulkah.

Bob Britton, captain of the opposing Shedfield side, preferred a John Lennon nostalgia peaked number, while his colleague, Terry Bill, wore a Lady Di floppy tweed job. Philip Deane wore a stable lads flat cap, but removed it when he got down to business.
It worked, too. A rogue boule from

Shedfield wormed its way through the Wheatsheaf's guard and gave them a single point for the first end, the scoring being like the English game played on green stuff. Wheatsheaf hit back with two from the next end and three from the third. "Shirt!" said M. St Denis. "C'est bein joue bein?"

May of the Southampton Arms was acting as interpreter of the game's finer points. "The main difference betwen bowls and petanque, apart from the throwing technique, is that shooting, or firing as they say in bowls, is more unusual in th lawn game. In pétanque, you'll get several attacking boules in every end. In

Shedfield clawed their way back into the reckoning, and trailed 5-4, and Wheat-sheaf were under threat. It was time for drastic measures: M. St Denis took 2 Gaulloises from his pocket and lit it. No English player could fail to be intimidated.

The British Pétanque Association (nothing fancy about them, they pronounce it "per-tonk") is fussy about its boules, they must be stamped with both serial number and weight, otherwise they are "dog boules" and suitable only for a back garden jolly.

Wheatsheaf drew away again, to 7-4, but with Britton polishing his boules on his corduror trousers like Dennis Lillee, Shedfield drew level after an error from the Frenchman. "Oh byang jeway, Alain", barracked a copin from the sidelines.

There are pockets of pétanque all over Britain, clubs in Scotland and Wales. In Southampton, there are four municipal pétanque terrains. A terrain must be flattish and grassfree, preferably dusted with very fine gravel. Breweries can sometimes be cajoled into laying out the £500-odd you need to establish one at the pub. A set of boules bought in England will cost around £16, but a magic set for the soi-disant master will set you back £24.

But merde, what is this? A daring placement of cochonnet into a freakish little gulley in the terrain. "Your terrain needn't be perfectly flat", May explained. "That's where a little extra skill can come in." He has reason, this man. Wheatsheaf went in one end from 8-7 to 11-7, with a couple of needle-threading boules from Mike Sharratt, "Plaid!" said M. St Denis.

The youngest player at Southampton was Ian Barnett, holding his own in good company at the age of 10. His brother, a 13-year-old, hammers all the best at the Fountain Inn and has won the soubriquet of Mark the Shark.

Shedfield, faces grimmer by the minute beneath their chapeaux, laboured back to 11-11, but some clever stuff from the Frenchman pegged them back again: 13-11. A new end, the last? Barbara Sharratt set a hot pace with a finely judged opener which the Shedfield men were never able to match. Mike Sharratt stepped to blast their best effort to one side, "Shirt!", and it was all over. Wheatsheaf were champions, and the teams exchanged handshakes and

A frightfully civilised afternoon, "Some French people I've stayed with refuse to play the game because it is too low class for them, mused May, "But over here, it's all doctors and architects and businessmen." C'est drôle, hein? But maintentant for un pint de lager.

Simon Barnes

HOCKEY

Atkinson finds his target

From Sydney Friskin The Hague

Real Club de Polo...

David Atkinson, a former Cambridge University captain, played a big part in securing Southgate's European club championship bronze medal here yesterday. He scored the second and third goals against Real Club de Polo Rarrelona) and had a hand in the first. The gold medal was won for

the second year running by Dynamo Alma Ata who beat the Dutch champions, Klein Zwitserland, in the final before a holiday crowd of 5.000. This was Atkinson's first match in the tournament. Replacing Moulton on the right wing, he made good use of his speed and strength of

arm.

Everything went right for Southgate from the start and two goals were scored before the Spaniards could settle down. In the sixth minute Atkinson, racing past two defenders, hit the ball hard across from the right. Kerly took an enormous swing at it from the top of the circle and it landed against the

Three minutes later Kerly moved strongly up the middle and passed to Rielly, whose centre went straigth across to Atkinson who scored on the run. Southgate's next move, started on the right by Batchelor, earned them a short corner which led to a penalty stroke, a Spanish foot having come in the way of a push forward by Craig. But Kerly, who look the stroke, did not quite get hold of it and the goalkeeper saved with his hand.

The alarm bells began to ring for Southgate when the Spaniards converted a short corner in the 22nd ninute to put themselves back in

After the Spaniards had squandered a short corner in the ninthminute of the second half Southgate began a period of ascendancy which led to a well-taken goal in the thirteenth minute. A free his from the left by Kerly pierced the Spanish defence and Arkinson was in position to scoop the ball past the stranded goalkeeper. The Spaniards never gave up trying and their persistence brought them the larger share of the short corners. In the last couple of minutes they forced two. couple of minutes they forced two.

Owen saving well off the first of Dynamo once again emphasised

their ability to rise from mediocrity to sheer brilliance as they did in last year's final against Klein well tucked away by half-time when they led 3-1 with goals from Goncharov (two short corners) and Nehipuren-kov. Klein's goal which had levelled the score at 1-1 was scored by Ties Kriuze. After the inferval Dinamo added another goal through Goncharov from a long corner and Hiddekruize reduced the lead.

Disbelieving Barras triumphs after thigh-curdling climb

By John Wilcockson

"I cant-believe iti" Sid-Barras exclaimed after winning the first stage of the 1983 Milk Race in Bristol yesterday afternoon, 14 years after his last such success on a windswept promenado at New

in 1969 he was a precocious 21 hrust of a massed bunch finish held no fears. Yesterday, in front of Bristol Cathedral, he easily out-sprinted 12 others, including his 22-

year-old professional seam conca-gue, Scan Yates, who takes over the race leadership.

"That boy is so unselfish," Barras said, in admiration of Yates, who set a fierce pace over the last five miles to ensure that none of their 11 overseas rivals could take them by surprise. The main field finished one-and-a-half minutes behind. The 120 miles from Bourne-mouth were raced at a relentless seed, with the vital break starting

between the Somerset villages of Lovington and Lydford, 54 miles from the finish. At that point, Eaton of the United At that point, Eather of the Chamark had built up a lead of two minutes after breaking clear, descending from Shaftesbury, ten miles explar.

Before Castle Cary a group of 10 had parted company from the main field, already led by Ystes and Barras, with Steve Speaks, a Belgian-based American, and young Stefan Brykt of Sweden also prominent.
They were pulled back but within

They were pulled back but within10 minutes were again attacking, this time with five of the six West Germans, there Czechoslovakians, Nilsson of Switzerland and Desevres of France.
Within five miles, they had mopped up the two leaders to make a breakeway group of 17, already a minute clear. The only unrepresented teams were Ireland, Poland and Great Britain amateurs.
The Polish team leader, Szczeplowski, was unfortunately not in a

position to react. He had just rejoined the field after a chase of one hour, after being strangely abandoned by his team when he had punctured at the top of Zig-Zag Hill. By Wells, at 86 miles, the leaders were almost two minutes ahead when Stauff, one of the Germans, attacked from the front. He was chased and joined by the remark-

FISHING

Jupiter Pluvius pulls out the plug By Courad Vess Bark

The cold and the wet, the wind and thunder, have made it an almost disastrous start to the trout season. Men have been browned off and rained off from Tamar to Tweed, huddling under trees while local vicar took four during one the lightning flashes and half patters on their waterproofs like plastic half fish which he took home for the family to have for tea. God was

never is. The spring fed rivers of the others.

family to have for tea. God was It is not universally disastrous. It good to the vicar, not to some Nevertheles

doyenne of the Usk, Jean Williams, who says that although the river has been going up and down like a Yo-Yo, rising a couple of feet in a matter of an hour, in the good patches there has been a wonderful hatch of March Rrowns, the ones with the reddish bodies, and that has been a great consolation. Nevertheless, it is only a spasm. "Today the river is raging and we've got hail and thunder. It's no good at

It is not miverally disastrous. It ooks to others others of the sorting fed rivers of the others.

Across the other side of the moors, on the Wharfe, it is the same moors, on the Wharfe, it is the same the majority throughout the country, have been running like cocca.

Not only that, it has been going on for weeks. In Yorkshire, the Swale has been bank high for a long time. The Ure has been pretty cold and very finistrating and in the last few weeks has been so high that there has been little doing. With the new drainage on the Ure, the spate runs out like pulling out a bath plug but the trouble is that the bath keeps being filled up again.

It is not miverally disastrous. It so the same of the moors, on the Wharfe, it is the same and all."

Taw and Torridge, Tamar and Exe, are singing the same time, persistent rain making them quite unfishable, so that you have to go up to the high moors, to the upper yielding anything at all it is with part to see a clean river, but wise men would advise you not to try it with the heart is the familiest hope of it—but the for you would either get lost in the hut and tell sad raises.

The only good news I have heard.

Today the river is raging and we've got hail and thunder. It's no good at all."

Taw and Torridge, Tamar and the same time; the same time; the same time; bethe all is with a suppling at all it is with the high for a long withing at all it is with the high moors, to the upper yielding anything at all it is with the heart plug anything at all it is with the last few weeks has been so high that anything at all it is with the high for a long of the work and if the Wye and Usk are the same time; the same time; the same time; the fightens a man just to got hall and thunder. It's no good at all."

Taw and Torridge, Tamar and thunder it's no good at all."

Taw and Torridge, Tamar and thunder it's no good at all."

To a same it is the same in Wales, if not unfishable, so that you have to go that in the instance of the persistent rain making them quite unfishable, so that

FOOTBALL: THE HEIR PRESUMPTIVE RECEIVES HIS CROWN

The mantle passes on to Fagan

Football Correspondent

When Liverpool are presenied with a seemingly insoluble managerial problem, they go to their inner sanctum, the Boot Room. There, nine years ago, they found the successor to a figure who had already become a legend, the late Bill Shankly. They returned there yesterday in search of someone who could take over from the most successful leader in the game's history, Bob Paisley.

Joe Fagan, aged 62, agreed to maintain the tradition, and will take up his appointment officially on July 1. Born in Liverpool, he made 148 appearances and scored two goals as Manchester City's centre half before finishing his career with a brief visit to Bradford Park Avenue in 1953.

He joined Anfield's staff as the assistant trainer in 1958, and has been Paisley's righthand man for the last four years. Fagan;'s task is even more awesome than that which faced his predecessor in the summer of 1974, and there was a faint echo of Paisley in his acceptance speech. "I didn't expect this at my age, but I suppose experience comes into it," he said yesterday.

Paisley opened his first team talk by saying: "I never wanted this job anyway.

surely never be equalled, let alone surpassed. He will not leave Anfield after 44 years with the club - that would be 100 severe a wrench. He becomes a part-time, paid director, a move made possible by the generosity of Peter Robinson, Liverpool's secretary, who offered to resign from the board.

John Smith, the chairman, explained: "Under FA rules, we can have no more than one paid director and, until the rules are changed, Mr Robinson will have the title of chief executive and general secretary. Mr Fagan will have total authority over all

playing activities."
Paisley added: "I'm delighted the job has stayed within the club, which means no break up in the backroom team. Joe is a seasoned campaigner and I'm sure he's capable of carrying on. I certainly won't accept any drop in standards. I'll still be the groundsman up, but I'll not be intruding on Joe's job."

Liverpool's success. The timing many others, might also be of bringing newcomers in to the available soon.

That win closed the gap on Hamburg, whose last game before Wednesday's European Cup final against Juventus ended in an uneasy

2 draw in Kaiserslautern. Watched by a 33,000 crowd, the

title-holders went ahead with a penalty after 55 minutes from Manfred Kaltz, the international

Golf: Paradise regained in time for Walker Cup

Sunshine and some optimism for Britain

endale of Wimislow and Sand Moor to the paradise comparatively speaking, of Hoylake. The sun was in its heaven (well, for most of the day), the mercury was on the rise and the larks were in magnificent voice. The turf of the Royal Liverpool Club was dry enough to offer some sort of guarantee against a further attack of foot-rot, an almost unprecedented experience in any part of the world

this year, judging by golf reports All, then, is set for a successful Walker Cup match between Great Britain and Ireland on the one hand and the United States on the other. History points relentlessly towards an American victory, since we have won only twice and tied only once in 28 attempts, but let us take Henry Ford's view of history, if only for the sake of heightened anticipation.

Charlie Green, the British captain, is less fulsome than most in his general attitude and he expresses less optimism than most. Curiously enough, his lack of empty bombast is itself a source of comfort, since you feel that he means what he says. And what he says is that he is "more confident now than before I arrived, because of the way the chaps are playing. They have been working playing. They have been working hard here and had obviously worked hard before coming to Hoylake".

those of his troops who will stand in when the two strong men, Siegel and need of inspiration. The pairing for tomorrow's foursome will not be their armour. announced until this evening, but we may glean a clue from the composition of the team in practice playing in the first of his two University of States Masters as our amateur

Green sent them out as follows: champion, finished in front of all Stephen Keppler (England) and Philip Parkin (Wales): George Macgregor (Scotland) and Philip Walton (Ireland): Malcolm Lewis team from the heart of the action. (England) and Martin Thompson Only once since the golden days of (England); David Carrick (Scotland) Bobby Jones and Francis Ouiment and Arthur Pierse (Ireland); Lindsay in the 1930s has the United States Mann (Scotland) and Andrew departed from its tradition of Oldcorn (England). With only four having a non-playing captain. That foursomes matches on the pro- was Charles Coc. in 1959. gramme, two players will receive an early disappointment, but Green hopes to give everyone a match either in the morning or in the 1979 and its American counterpart less were ble will be also in a left between the property of the playing in his

Many feel that Green, the current the United States title two years ago Scottish captain after a marvellous can have any doubt about his final against George Macgregor at qualities as a march-player. He was, Carnoustic last summer, should be too, one of the two who held firm in the team, but he is quite happy to for his country, along with Lewis, in be on the sidelines, encouraging the world championship last year those of his troops who will stand in when the two strong men, Siegel and

either in the morning or in the afternoon singles.

The Americans are thought to be less formidable than usual, though that offers only limited solace in view of their customary margin of superiority. Outside Siegel and Holtgrieve, Crosby is the best with Rick Fehr (Washington); however, who saw the Massachussetts); David Nobody however, who saw the 1979 and its American counterpart also year. He will be playing in his third Walker Cup. Siegel has declined on his foursomes pairings so we may take special head of the way he placed them yesterday, as follows: J. Siegel (Pennsylvania) at Turnberry. The field this year is follows: J. Siegel (Pennsylvania) with Brad father as well as an able golfer.

Nobody however, who saw the 1979 and its American counterpart last year. He will be playing in his Hoffer is at the centre of a major embarrassment for the R & A, who first declined to accept his earty for next week's amateur championship at Turnberry. The field this year is follows: J. Siegel (Pennsylvania) with Brad play guarantees every player at lenst two rounds of golf before the 64 players for the match-play stage.

(Crosby (California) with Billy Tuten (Florida); Jim Holtgrieve (Missour) with Bob Lewis (Ohio). Siegel regards Hoylake as marvelous lay-out after having experiences in "three and a half to four" different guises because of the fickleness of the wind these last few days. Yesterday it blew from the south west and the eleventh hole, particularly, provided the contrast of a one-iron on Sunday with a seven-iron yesterday.

For many of the American team,

seven of them new to the Walker Cup, a British links is a fascinating new experience, but the adjustment, Siegel thought, would be much les pronounced than on most such occasions. Because of the vast quantities of rain that has fallen on the Wirral, as elsewherem the greens are mostly soft and receptive to the Americans of course are well accustomed. The seventh was a winter that allows little opportunity glaring exception; "very firm and glaring exception, "very firm and very dangerous." Hofter is at the centre of a major

less formidable than usual, though that offers only limited solace in view of their customary margin of superiority. Outside Siegel and Holtgrieve, Crosby is the best with Rick Fehr (Washington); first declined to accept his entry for next week's amateur championship at Turnberry. The field this year is follows: J. Siegel (Pennsylvania) Holtgrieve, Crosby is the best with Rick Fehr (Washington); fixed as well as an able golfer. Faxon (Massachussetts); David futher as well as an able golfer. Faxon (Massachussetts); David fixed players for the match-play stage display of guts that carried him to

Crosby: courageous

necessary to restrict the numbers by excluding three-handicap players and balancing among those on two for the remaining places.

Because of the intricacies of the

for winter golf. Hoffer has a nominal handicap of three and his distinguished identity was not recognized among the avalanche of

Teenoso pedigree satisfies breeders

Those who admired the way

that Teenoso won the Highland Spring Derby Trial at Linefield Park earlier this month, will not be the only people who will applaud Lester Piggott's nominated ride in next week's Eosom Classic. Their approval will also be shared by the breeding pundits.

Peter Willett, a widely acknowledged expert in that field as befits the president of the Thoroughbred Breeders Association, lays great store upon a well proven system whereby both the sire ofthe winner and the maternal grandsire must haveon over at least a mile and a quarter. Only four of the post-War Derby winners have failed to satisfy that criteria and that is a pretty remarkable record when one realises that it now covers 37 years. . Teenoso, conforms

theory whereas neither Tolomeo nor Wassi, with whom Piggott was linked following Dunbeath's exit. Teenoso is by Youth, who won the French Derby and is out of a mare by Rallymoss, who won both the St Leger and the King George VI and Queen Elizabeth Diamond Stakes. Such a stamina packed pedigree more than fulfils Willett's requirments.

Tolomeo does not, simply bacause he is by Lypheor, who was a miler pure and simple. The fact that Wassl is out of a mare by Tudor Melody disqualifies him on similar grounds.

Cock Robin, Shearwalk,

Guns Of Navarone, The Noble layer and Zoffany are other notable Derby acceptors who do not conform to the theory. Cock Robin is by the American stallion Raise A Native, who only raced as a two year old. Mated with stoutly bred mares, Raise A Native has succeeded in getting top class middle distance horses so the fact that Cock Robin is out of a Vaguely Noble mare is a point in his favour. Nevertheless, the fact that his grand dam Flying Legs was such a fast filly by Palestine, could be counterproductive in the long run, especailly as staying amile and a half is concerned.

Shearwalk and Guns Of Navarone are both by stallions who were essentially speed horses while The Noble Player s out of a mare by On Your Mark, who was successful from five furlongs to a mile but no lurther.

Being by Our Native and out gilt-edged come June. of a mare by Grey Dawn, Zoffany does not pass the pedigree test whereas his stable companion. Gordian does, because both his sire Grundy because both his sire Grundy and his maternal grandsire Silly where he is a great favourite in the but who could ye scason did win over at least a mile and a quarter. Grundy in horse as O'Brien's 1968 Derby Park on Saturday.

Sarah Kennedy and Christopher Lillicrap, both looking suitably good and fit, are the co-presenters of the tourth series of LOOKING GOOD, FEELING FIT (BBC 17.10pm), a programme, in a magazine-type format, to help the viewer lead a healthier life. This opening programme has a broad enough cross-section of subjects to interest about hair care, oriental massage and injuries caused by sport. In addition, Stephanie Lawrence, the Marilyn Monroe look-alike gives the ladies inside information on how to achieve the Monroe look. A pacey opener which augurs well for the other five programmes in the series A disparate set of characters have been brought together for IT'LL ALL BE OVER IN HALF AN

Shortages loom as rain halts farmers

By John Young, Agriculture Correspondent

farming has all but come to a is still a risk that they will rot in hait in many parts of the heavy soils if the wet weather country because of rain. Fields continues. are waterlogged and a tractor at work is a rare sight.

likely to be shortages of spring cattle out to pasture, despite the greens and early summer beans, peas and new potatoes. It is virtually impossible to get on to

In the longer term, yields of wheat and barley are expected to be lower, because farmers have been unable to apply pesticides and top dressing fertilizers. No one is yet predicting a disaster, but experts have warned that hot, wet weather in June or July could produce an epidemic of crop

On the other hand, a hot, dry summer could be almost as bad, since roots have rotted in the Straw which can be used as a saturated ground. If the topsoil saturated ground. If the topsoil supplementary feed for live-dried out, the weakened plants stock, but which many farmers would be deprived of moisture.

The British Sugar Corpor- now fetching up to £80 a tonne. ation has already discounted hopes of another record beet harvest. It said yesterday that an estimated 10 per cent of the crop had still to be sown, and that this year's yield would be at best no more than average.

A week ago less than half the

main potato crop had been planted. The position has slightly improved since as farmers, stimulated by the prospect of shortages and consequent high prices, have struggled on to their fields.

The Potato Marketing Board

At what is normally one of about 25,000 in each of the the busiest times of the year, preceding three weeks. But there farming has all but come to a is still a risk that they will rot in

With supplies of hay and ork is a rare sight.

The most immediate effect is farmers are being forced to turn damage done by their hooves which turn muddy field into morasses, and the likelihood the fields either to harvest or that many leys will have to be replanted

> Lack of sun deprives the grass of proteins and sugar, and this has already been reflected in milk production which was only four per cent higher in April than a year ago, compared with increases of 12 per cent or more earlier in the year. Cutting grass for next winter's silage has also been badly hampered.

> In upland areas grass growth on hillsides has been very poor. chose to burn last autumn, is

Oilseed rape, relatively unknown in Britain until about 10 years ago, is now easily the country's most rapidly expand-ing crop. Between 1977 and 1981 the total acreage almost doubled, from 135,000 acres to more than 250,000, and in the last two years has increased even more spectacularly to an estimated 650,000.

The main reasons for its popularity are that it finds a ready market as a versatile substitute for most important estimates that some 36,000 vegetable oils and is an acres were planted last week, excellent break crop between compared with an average of wheat or barley.

Albany group finds food

By Stewart Tendler, Crime Reporter

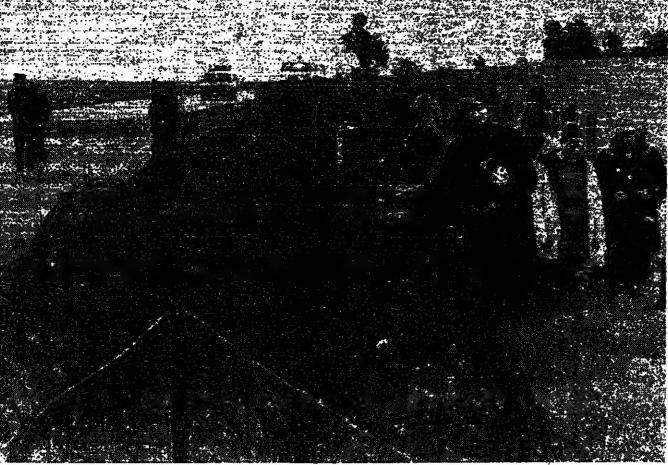

Seven prisoners, including The men have been seen Provisional IRA and Palestidrinking from a flask and nian Liberation Organization terrorists and an armed robber sentenced to four life terms for murder, yesterday continued their protest on the roof of Albany prison, on the Isle of Wight, without any sign of

Prison officials have held decided to leave the men alone some talks with the men who may be prepared for a long stay. A sack has been seen being supplies from sympathizers. Al aircrew in London in 1979.

drinking from a flask and cating, although the authorities have denied them food and water since the protest started on Friday. Yesterday they threw debris

from the roof, part of which the have removed so that they can shelter underneath. So far, the authorities have

ready surrendered. Those that remain include lowered from the roof and may Fahad Mihyi, aged 25, convicted for a PLO attack on an El

Barbed protest: Peace campaigners planting crosses near the runway yesterday after breaching the perimeter fence at RAF Upper Heyford, an Anglo-American nuclear base in Oxfordshire, (Photograph: Brian Harris).

Cowardice charge widens PLO split

From Robert Fisk, Damascus

There were further serious pheavals within the Palestine Liberation Organization yesterday when the leader of the pro-Moscow guerrilla group within the PLO went over Mr Yassir Arafat's head to demand an economic boycott of Lebanon. and then indirectly demanded the dismissal of two of Mr newly-appointed

Mr Nayef Hawatmeh, who heads the Democratic Front for the Liberation of Palestine, told a press conference in Damascas that Syria should impose "a total economic boycott of Lebanon" that would "force the Lebanese bourgeosie" to decide where their true interests lay. Mr Hawatmeh would not say

whether he called for the

boycott of Lebanon with the full authority of the PLO. However, he made it clear that he regarded Mr Arafat's new commanders - one of whom he accused of running and three prisoners have alaway from the Israelis - as worthless. The eight prominent PLO officers who have rejected Mr Arafat's leadership first

the dismissal or trial of the two former commanders from southern Lebanon who were appointed by Mr Arafat to new positions in the Lebanese Bekaa Valley earlier this

"There is always a need for

purging the ranks of a resist-ance front", Mr Hawatmeh said. "This is a phenomenon common to all resistance movements. There are some people who left the battle scene of resistance in southern Lebanon. He who left his position in Sidon should be outside the ranks of the revolution. This applies to any fighter who ran away from the battle scene." Mr Hawatmeh speut much

of his time outlining his distrust of the Israeli-Lebanese withdrawal proposals, claiming that the newly signed agree-ment between the two countries was part of an American conspiracy to weaken Arab resistance to Israel and persuade Jordan to negotiate with Israel over the Palestinian autonomy without the PLO's sought support by demanding approval.

South African air raid kills civilians

Matola suburb which was the target of a raid by South African MAPUTO: Reporters who commando units in 1981 on toured the area unescorted after houses and buildings they the five-minute raid yesterday believed to be occupied by ANC said the victims appeared to be members.

In December last year, the South Africans made a similar raid on alleged ANC "nests" in Maseru, the capital of Lesotho, killing 42 people. Many were ANC members, but 12 were Lesotho civilians whom the South Africans said, had been unintentionally "caught in the cross-fire". Speaking in Parliament yes-

terday, General Malan said the latest raid had been carried out have been an ANC member. "effectively neutralized".

General Malan said the LONDON: Britain victims, but most seem to have solved by violence," he said.

tactical as well as strategic methods of transport, Mrs Margaret Thatcher, who used an aeroplane for her first mission from London last Friday, was yesterday dropped on Bristol from a helicopter for her second at the Longwell Green community centre in the constituency of Wanskyke.

She was met by a large crowd friendly to her aims. She the crowd, and a large number of cameras disap-peared inside. Those of us who know better than to tangle with a mob of old-age pensioners surrounding Mrs Thatcher held back. They are ruthless when they want to converse with her. She is ruthless in her use of them liking nothing better than to be photographed in circum-stances of amity with the Grey vote in order to refute Labour's proprietorial claims to our senior citizens.

It was explained to us by a local Conservative strategist that inside the building the party had produced for inspection by her before the cameras a veteran of the Battle of the Falkland Islands, aged 88. That battle, one assumed, was the one which took place around the Falkland Islands in 1915 rather than the one in 1982. Either that, or Mrs Thatcher is even more ruthless with the use of old folk than we though.

Because of the crush, it was impossible to record what precisely passed between them According to the Conservative official, he expressed a readiness to go down there and do the same again to the enemy. She promised to let the enemy know that. Presumably she and he had in mind, as the enemy, the Argentines rather than the Germans, though in the interests of our good relations with the Bun-desrepublik she had better clear that up.

Geopolitical matters having been dealt with, she then had lunch in the community centre. We and the photo-graphers were excluded from that rite, and correctly so. I had no wish to see my illusions of her shattered. Mrs Thatcher with fork poised in gaping mouth probably looks as undignified as the rest of us in that posture.

Cheered on by the old folk, she set out for the second marginal: Kingswood. There she attacked an engineering

Showing a command of works. Outside she was met by about a score of young people gathered under the red banner of the Bristol Socialist Workers party. Many more earrings except, of course, the girls.

They chanted demands for the occupation of the factories and similar amusements to be made available to young people. Leading the chants with a loud-hailer was a man with a Liverpool accent. Bristol being perhaps short of organizers of revolution and Liverpool having enough of

them to export.

As she entered the factory. the Bristol Constabulary stood between her abnd the revol-ution. But she was in no danger. There were plenty of old ladies about.

While she inspected the factory, the vanguard of the Bristol proletariat continued to call for its occupation. A half-dozen supporters of Mr Terence Walker, the Labour candidate, stood apart from the revolutionaries. They appeared to be solid citizens: representatives of the bourgeois reformist tradition of socialism despised by such places as Havana and Liver-pool. "Come up here and demonstrate with us", the man with the loud-hailer, attempting the formation of a popular front for immediate tactical purposes, cried across to the reformists.

He was greeted with the shout: "Out on the bloody doorknocker. That's where we need you, mate." The revolutionaries attempted no further dialogue with the believers in the parliamentary road to socialism.

A van with a loudspeaker driven by two Conservative girls drew up and started playing Land of Hope and Glory. Thus there was an intervention by the common enemy of both revolution and parliamentarianism: "Imperi-alism". Anxious to prevent civil war, a policeman asked the imperialists to turn the sound down, which they did.

Their second piece of music was a throbbing baritone singing: "Rose of England". I inquired the name of the singer. "Ivor Novello", one of the girls replied. I suggested that that could not be right, for I had always associated that artist with a less virile persona. "Perhaps it is Ivor Emmanuel singing it, and Ivor said. "It is a very old song."
